

D. Boral Capital: Philanthropic Endeavors Continue with Donations to Keep a Child Alive and Project Rousseau

At D. Boral Capital, we are very passionate about philanthropy and the opportunity to make a difference. We're a leading investment bank dedicated to creating meaningful impact through community support and corporate social responsibility. In addition to financial contributions, we strive to be leaders by volunteering our time and catalyzing positive change.

Philanthropic Efforts That Make a Difference

D. Boral Capital made significant charitable donations to two impactful organizations this year: *Keep a Child Alive* and *Project Rousseau*.

- We donated to *Keep a Child Alive*, which provides needed healthcare and housing to children in Africa and India
- We also donated to *Project Rousseau* which focuses on providing academic support, mentorship, and opportunities for underserved children in New York City

"We are proud to support these two organizations as they both have a mission of helping future generations thrive," said David Boral, Founder and CEO of D. Boral Capital. "These philanthropic efforts demonstrate our commitment to giving back in ways that truly matter."

Corporate Volunteer Day: Community Engagement in Action

D. Boral Capital remains committed to community engagement, the firm hosted a corporate volunteer day on December 11th, 2024. Employees spent the day volunteering with The Madison Square Boys and Girls Club.

D. Boral Capital will always emphasize the value of active participation in creating social change by encouraging our employees to engage directly with the community. This event demonstrates our firm's belief in the power of community engagement as a part of our corporate mission.

Long-Term Commitment to Corporate Giving

Our philanthropic impact will be more than individual events or donations. Each year, we want to allocate generous donations to support causes that address youth development, healthcare, military, and community needs. We want to be leaders in corporate giving and focus on achieving lasting social impact.

By combining our financial resources with employee-driven initiatives, we consider ourselves leaders in integrating corporate social responsibility into core business operations, to build stronger communities.

Local and Global Impact

D. Boral Capital recognizes the interconnected nature of our global society and has expanded its philanthropic initiatives beyond local boundaries. Partnerships with organizations like *Project Rousseau* are great for strengthening New York City, and our support for *Keep a Child Alive* will address certain pressing global challenges by providing healthcare access to underserved regions.

D. Boral Capital pledges to make a difference wherever it is needed.

By adopting a more expansive philanthropic strategy, D. Boral Capital aims to:

- Maximize Impact: Addressing issues that transcend across geographical borders
- Foster Global Citizenship: Encouraging a sense of responsibility towards global challenges
- Leverage Resources: Utilizing the firm's network and expertise for widespread global solutions

A Legacy of Giving Back

Philanthropy is a guiding principle at D. Boral Capital. Our commitment to community support and social impact is an inspiring model for how businesses can lead meaningful change.
